

# Hello, I'm Tugay Akin

I'm a product designer based in Antwerp, Belgium, originally from Bursa, Turkey.

I believe that good design starts with the right questions. After asking the right questions, my goal is to create simple to use and clean interfaces.

Over 8 years, I've had the chance to create digital experiences for companies across a variety of industries.

## Experience

**Designer** @Apibase 2019 - Present

At Apibase, I create user interfaces for our complex restaurant management software along with offline design materials.

**Product Designer** Freelance 2015 - 2019

After I decided to work as a freelancer, I worked on SaaS projects, websites and mobile applications for various clients from the U.S. and Caribbeans.

**UI/UX Designer** @Kuark Digital 2012 - 2015

When I was working at Kuark Digital, I created user experiences for web and mobile apps. Clients included Turkey's one of the biggest football club, basketball club and many more.

## Skills

UI Design, UX Design, Site Mapping, Wireframing, Branding, Figma, Photoshop, Illustrator, Sketch, InDesign, Prototyping, HTML, CSS.

## Education

**Anatolia University** @Turkey 2011 - 2015

Business Administration and Management.
